Clark features a extraordinary Parts Supply team. The components warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to offer the highest level of value and service to our clients, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Globally, Clark has one of the most impressive dealer support networks. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling industry.

Clark proudly remains an progressive leader of the industrial equipment industry, pioneering safety features such as the worker restraint system. This exceptional commitment to safety is now a customary feature on every lift truck.

Clark has a unyielding goal to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental limitations, thus placing them in a prevailing industry position.

Clark has chosen the structure of "Lean Production" at all of its assembly facilities for the reason that this technique is particularly economical and allows for minimal use of resources. Developed to ensure maximum efficiency, this system is intended to find and acknowledge the most efficient ways for production plant management. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to upgrade the proficiency and brilliance of their merchandise while minimizing expenses. The new value engineering agenda combines progressive product development and offers improved customer support and service within the industry.
